

Abdul Rehman Ghaffar

Software Engineer & AI Developer

0303-7101585 | abdul3rehman786g@gmail.com | Faisalabad, Pakistan

PROFILE

Motivated Software Engineering student at the University of Agriculture, Faisalabad (3rd Semester) with hands-on expertise in MERN stack development, AI chatbot and voice-assistant integration, and digital marketing. Experienced in building and deploying a production SaaS product (Kimra AI) using React/Vite, Node.js/Express, MongoDB Atlas, Firebase Authentication, and the Google Gemini API. Skilled in combining cybersecurity awareness with modern development practices. Eager to bring technical skill and a fresh perspective to impactful products.

WORK EXPERIENCE

Full-Stack Web Developer — Freelance / Self-Employed — Remote 2023 – Present

- Built responsive MERN stack websites delivering clean UI/UX across devices.
- Integrated AI chatbots into client websites for automated customer interaction.
- Managed Facebook & Instagram Ads campaigns — targeting, creative, ROI optimization.
- Provided cybersecurity services: phishing detection, RAT removal, account recovery.

Founder & Developer — Kimra AI — Independent SaaS Product — Remote 2024 – Present

- Built and deployed Kimra AI, an embeddable AI voice-assistant widget businesses can add to their websites, using the MERN stack (React/Vite frontend, Node.js/Express 5 backend, MongoDB Atlas).
- Integrated the Google Gemini API (gemini-2.0-flash) for real-time conversational AI.
- Implemented Firebase Authentication and resolved user-facing redirect issues.
- Deployed and debugged the app on Vercel, resolving serverless cold-start database race conditions, CORS issues, and Express 5 compatibility problems.
- Currently expanding the product with a chatbot mode alongside the existing voice assistant.

AI Prompt Engineer — Independent Research & Practice — Remote 2023 – Present

- Engineered effective prompts for GPT-4, Claude, and Gemini for automation tasks.
- Built AI-powered workflows combining LLM APIs with live web applications.

EDUCATION

B.Sc. Software Engineering — University of Agriculture, Faisalabad 2024 – Present

- 3rd Semester — Core: Data Structures, OOP, Software Design.
- Building MERN stack & AI integration projects (including Kimra AI) alongside studies.

Intermediate — ICS (Pre-Engineering) — Workers Welfare School & College Completed

- Score: 937 / 1200 — Mathematics, Physics, Computer Science.

Matriculation — Science — Workers Welfare School & College Completed

- Score: 995 / 1100 — Consistently top academic performer.

KEY COMPETENCIES

- Web Dev: MERN Stack, React.js, Vite, Node.js, Express.js 5, REST APIs, HTML5/CSS3, Responsive Design
- Databases & Backend: MongoDB Atlas, Serverless Deployment (Vercel), Firebase Authentication
- AI & Automation: Google Gemini API (gemini-2.0-flash), GPT-4 & Claude Integration, AI Chatbot & Voice Assistant Development, Prompt Engineering, LLM APIs

- Cyber Security: Phishing Detection, RAT Analysis, Account Recovery
- Digital Marketing: Facebook Ads, Instagram Ads, Campaign Strategy
- Programming Languages: JavaScript (ES6+), C++

CERTIFICATES

- Coursera — JS Developer
- NAVTTC — JS Developer

LANGUAGES

- English: Proficient
- Urdu: Native
